Assignment 3

In your own words, answer the following questions based off your reading from Week 2. Describe your reasoning based off the significance of the reading and your own inferences. Answer each question using one well-formed paragraph.

- 1. Is there a thing such as using too much CSS? Is it bad style to use inline CSS?**
- 2. Would there ever be a need for multiple CSS files to be linked to a single HTML file?**
- 3. Do advanced websites also still use HTML, CSS and JavaScript? For example, the apple website. It isn't like any other website and has some fancy aspects to it.**
- 4. What are the limits of html? (Where does the language get more complex or difficult compared to other coding languages)**
- 5. Besides the discussion problems above, describe one unique perspective you gained from the reading on web technologies.**
